45842 Landscape, Ta Hua Sou, Chikhi, China.
View from a position to the southeast of the Temple. This view shows something of the setting of this 1000 or more year old Temple, situated almost at the base of Silver Mountain. It also, especially with the other views, gives a very good idea of the nearby region.

are near the extreme right.

Landscape, Great wall of China. On the Great wall of China above Ching tung Chiao. Ry. station, where one leaves the train to visit the wall. Carried back many years in memory to when this wonder was built.

45866 Landscape. From about the 3rd or 4th looking out tower to the left on approaching the Great wall from Ching lung Chiao Ry. station looking almost South. For a better view of the wall to the left, see picture # 45867. This wall is something like 1500 miles long 20 to 50 feet in height and about 16 feet in the clear on top.

45867 Landscape, Great Wall above Nanhow.
View from almost the same position #45866 was taken but in this case the
swing of the lens was south and easterly. A portion of the wall ascending
to the look out tower from where this picture was taken, is seen in this
view. We think this is really a remarkable view and gives a very good
impression of this wonderful wall.

region about here is devoted extensively to paddy rice growing.

45919 Landscape. From the trail en route from Chieh Tai San to Tan
Chow San, looking over a portion of the Lo Kuo Ling valley. The views gives
a pretty good idea of the lay of the land and the general appearance of the
country. Considerable fruit of various kinds is grown on the terraced land.

45940.

Landscape. From the trail above the Temple, I saw Chow San, while en route from there to Wentoukou. At the extreme right is our donkey caravan. The tree area is the Temple grounds, and shows pretty conclusively that the regged rough mountains could, no doubt, be reforested.

45941 Landscape. Panoramic view from about the top of the ridge above the Temple of Jan Chou Ssu. The temple can be seen near the head of the little valley at the left of the picture. This is a rough, rather rugged, unimproved country and yet much of it is farmed.
